

# Smart D70iD

From Mitsubishi Electric

- Photo ID printing
- CamFI® and FTP
- Biometric face recognition
- ICAO validation
- Less than 40 secs. for printout

# Your ID pictures in seconds!

Mitsubishi Electric Europe, expands the lineup of Printing Solutions with an Advanced Photo ID platform that provides to retailers and independent business the ideal solution for printing ID or passport photos in a quick and easy way, following ICAO and ISO standards.

How does it work?

## Sources

From several sources, the software will turn the captured image automatically into a perfect ID photo.

FTP\*

CamFI®\*

USB

SD  
card

\*Wireless connection

## Smart processing

The software will check, for every country template, the different required parameters in a multi-language and fast ID processing.

### ICAO Compliance

Automatic ICAO recognition. Take the picture and the Smart D70iD will do the rest.

- ✓ Open eyes
- ✓ Solid background
- ✓ No shadows
- ✓ Skin tone control
- ✓ Blur correction
- ✓ Head fitting in margins

### 100% biometrical approval

Automatic face recognition and fitting in the marked area

100% Biometric  
Approval

### Easy background removal

Change the background color in one touch, choosing between different colors

### Image enhancement

The possible defects are automatically corrected without affecting the picture's quality

Smart D70iD offers over 40 country templates, which can be changed without having to start over the process. It is available in multiple languages. The fast ID system, allows the customer to have their impression in less than 40 seconds.

## Outputs

### Multiple outputs

The customer has the possibility to have their picture printed, in USB storage or sent by email from the Smart D70iD system.

## Multi language system

### Available languages

English, Español, Deutsch, Français (Belgium), Français (France), Italiano, Portugues, Dutch, Svenska, Suomi.
